Grade: 11 12 **Academy:** East West

Academic Seminar 11/12 Student & Parent/Guardian Contract

Essex Technical High School is hoping to offer a new course next year designed to assist some students with extra support with their academic coursework. This course will be open to juniors and seniors based on their post high school plan. Specifically, this is a course designed for students who plan to enter the workforce upon graduation and to assist them in completing the academic coursework required at Essex Technical High School.

While a student will earn grades and upon passing, achieve high school credit for this course, this course is not recognized as a college preparatory course and will likely not be recognized by colleges and universities. Furthermore, it is important to note that by enrolling in the Academic Seminar, a student may limit his/her options to attend 4-year colleges and universities because they may be lacking high school foreign language coursework as well as other coursework that may be required by certain colleges and universities and their programs.

Where this block is designed to assist students in need, *behavioral issues will not be tolerated* during enrollment in the course. Students who disrupt the learning environment will be removed from this course and placed in an elective course that has openings at the same time the Curriculum Seminar is offered.

I understand that after submitting this contract that I will be considered for enrollment in the Academic Seminar course. I also understand that if I create a disruption in this block that I will be moved to an elective course that has openings at the same time as the Academic Seminar course due to Essex Technical High School credit and graduation requirements.
