## Student Parking Information

Notice: Wednesday, August 11, 2021

---

Dear Class of 2023 Students & Caregivers,

We hope this correspondence finds you well. The following document contains pertinent information about student parking and a description of the process that students/guardians need to undertake in order to obtain student parking permits for the 21-22 School Year.

Priority for student parking begins with licensed seniors in good standing. If space allows, licensed juniors will be assigned parking spaces. Sophomores will not be permitted to park on school grounds until the seniors have graduated.

Students must have driver's licenses at the time of the parking permit purchase. Students who receive their license subsequent to this application process can undertake the application process at that time. Available spots will be assigned as applications are processed.

Please read and review the Traffic Pattern information below as changes to our procedures and parking have occurred this summer.

**CLASS DUES:** Prior to being assigned a parking permit, students must have paid their class dues. Students who have not yet paid their class dues will receive an electronic invoice via their and their caretaker's email addresses as they appear on the Student Parking Application Form. The class dues invoice must be paid before the parking permit invoice will be issued.

Members of the Class of 2022 must have paid their class dues in full (\$200).

Members of the Class of 2023 must have paid their class dues through their junior year (\$150).

### **Parking Arrival and Dismissal**

To ensure safety and a smooth traffic flow upon dismissal, restrictions have been instituted regarding the direction drivers will be authorized to take upon leaving the campus at dismissal. Failure to comply will result in the loss of parking privileges.

Student Parking areas include H-Lot (H) and South Campus-Lot (SC). The South Campus Lot is located across the street from the school where parking is designated beside and behind Alumni Gym and along the access road, and into the "old bus lot" located adjacent to Route 62. Students entering South Campus will use the entrance located just west of the crosswalk, see the map for details and follow the one-way traffic flow. Students departing from the South Campus Lot will be required to exit at the far end of the campus lot onto Rte. 62 traveling East (toward Danvers). Please see the map below for specific information about traffic patterns.

Students exiting H Lot have two options for exiting. They may take a left out of the lot and proceed behind the school busses and take a left or right onto Route 62 (this is often the faster option). They may also take a right out of the lot and proceed beyond the main building to the far exit where they will take a right onto Route 62.

To apply for a parking pass please read and complete the following:
